Examiner Emulator Security Update

505 Andrea Lazzarotto Thu, May 16, 2024 Examiner Emulator. 0 4801

A new version of **Examiner Emulator** containing new **security contents** have been released on May 26th, 2021.

Current Examiner Emulator version will cease to operate on **May 31st, 2021**.

Until this date an automatic update of the software will be proposed to the users when running the application. After this date an **error message** might be displayed or the **impossibility to connect to the server** might be experienced when launching the application

To **restore the operability** it's necessary to download the new installation package.

The new installation package is available at **wiTEXEDI website > Software > Download**. Clicking on Examiner Emulator icon it's possible to download the new setup.
