Examiner Emulator Security Update

505 Andrea Lazzarotto Thu, May 16, 2024 Examiner Emulator. 0 3029

A new version of **Examiner Emulator** containing new **security contents** have been released on May 26th, 2021.

Current Examiner Emulator version will cease to operate on May 31st, 2021.

Until this date an automatic update of the software will be proposed to the users when running the application. After this date an **error message** might be displayed or the **impossibility to connect to the server** might be experienced when launching the application

To **restore the operability** it's necessary to download the new installation package.

The new installation package is available at **wiTEXEDI website > Software > Download**. Clicking on Examiner Emulator icon it's possible to download the new setup.
